50 Years Ahead

LET US PROVE IT

PATENTED

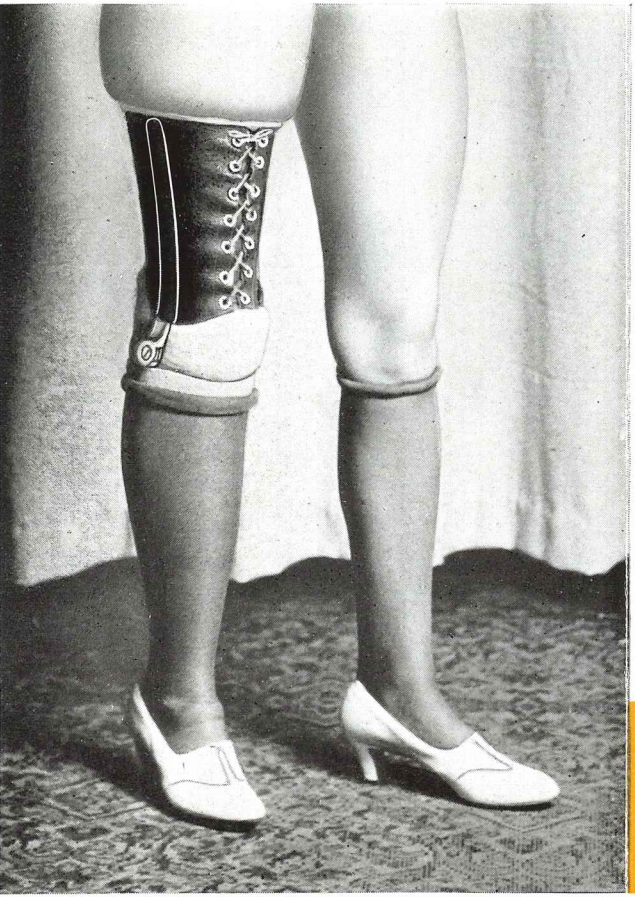
623/27

The EMMETT BLEVENS CO.

America's Outstanding Artificial Limb Manufactory

C O M P A R E

OLD STYLE LEG



The above illustration does not include the necessary shoulder straps or belt.

IF YOU ARE WEARING A LIMB WITH THIGH LACER AND STEEL JOINTS

Your thigh, muscles, and flesh are shrunken as illustrated on page 2.

When you change to the new patented limb your thigh, flesh, and muscles will redevelop, to match your natural thigh.

If you start with the new limb, the discomfort, that accompanies the disfiguration of your thigh and perished muscles can be avoided.

You will learn to walk naturally and without flinching, uneven, steps.

Let us prove these facts AND YOU BE THE JUDGE.

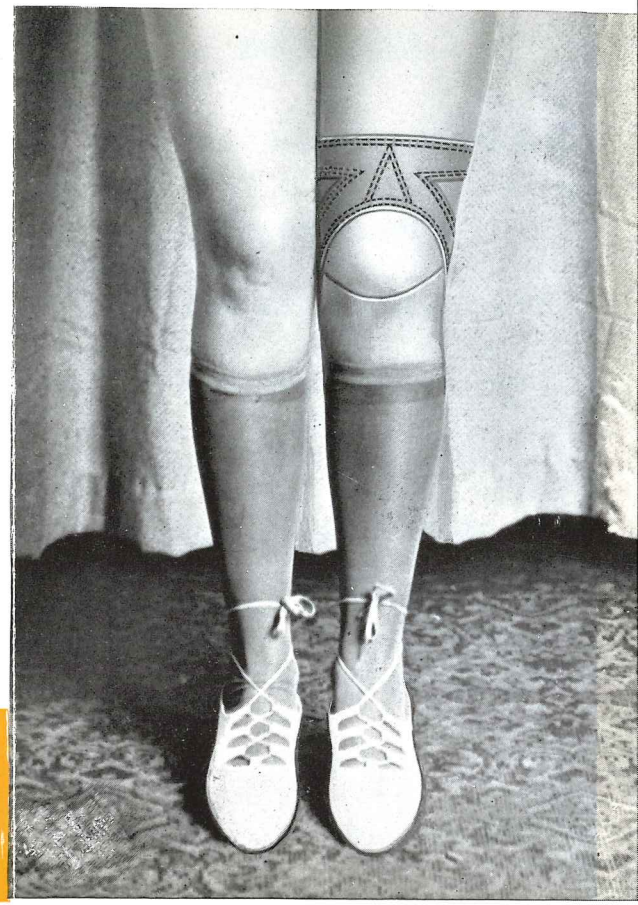
The **EMMETT BLEVENS CO.**

INCORPORATED

540 SOUTH BROOK STREET

LOUISVILLE, KY.

NEW STYLE PATENTED



No shoulder straps or belt necessary with this limb.

EXPERIENCE THE TREMENDOUS DIFFERENCE BY AN ACTUAL WALKING TEST WITHOUT OBLIGATION
